

MEMORANDUM FOR: Mr. Casey

Leo Cherne telephoned with the following message
for you:

Re the information you had with you when you saw him last week involving leaks, it will be very desirable that this material be in PFIAB's hands so that the small group who will be dealing with the question can have access to it. Otherwise, they have no way of knowing the nature of the problem and the seriousness of it. Mr. Cherne suggests that it be made available in the vault at PFIAB so that it can be read by the small group that will be involved in the PFIAB office where it will not leak.
